Networking Reception 2024

Overview

The informal networking reception will take place at the beginning of the 2nd day of ECOSOC Youth Forum (YF) 2024, on the 17th April from 7:30-8:50 am EDT. It will be co-convened by youth partners involved in ECOSOC Youth Forum and it will serve as an optional networking reception and as the social informal space for young participants of the YF to meet, interact with each other and connect, even in the online format of this year's YF. This event will be a virtual exposition of young leaders, partner organizations hosted on zoom. The session will begin with a welcome and introduction, followed by 2 major components running simultaneously:

1. **Small Group Networking:** Meet a small group of individuals, introduce yourself, learn what the other people do, and exchange contact information.
2. **Topic-Based Discussion:** Join a small group of people to discuss the following topics:

Youth Partners:

ICMYO, MGCY.

Objectives

- Connect young people in meaningful discussion around topics of interest of young people not featured in the main programme, including emerging issues and issues of high political importance.
- Support the young participants to interact with each other on a more informal basis and enhance the networking dimension of the event, despite the hybrid format of the ECOSOC Youth Forum 2024
- Provide youth with a space to engage with other young people and / or available resources in a comfortable and non-intimidating environment
- Connect youth to partner organizations whose work is in line with their values and interests.
- Enhance the visibility for the youth engagement at the UN processes.

Format

The session will begin with a welcome and introduction, followed by 2 major components running simultaneously:

1) Small Group Networking

a) It aims to provide a platform for youths to connect with each other.

2) Topic-based Discussion

a) 5 topics have been identified. Youths will have the opportunity to choose one or more rooms to join. Participants will be able to hop in and out of different types of sessions as they choose throughout the event.

The organisers will pre-select a number of topics interesting to young people that may not have made their way into the official programme but are politically important and emerging issues. These networking spaces will allow young people to have candid, informal conversations with each other on these topics while getting to know others interested in the same things.

Each topic will get its own unique link but will follow the same structure below. Participants will be allowed to move from one topic to another as they wish.
